Dear well-wishers,

Preface

Tremendous accomplishment over the course of two decades proves our sincere commitment to the cause and objectivity. Knowledge is inherent in a man but manifestation and sincere application lean on lubricant endeavors persuaded by the institutions in wake of producing ebullient characters, which are surmised to be prone and accountable for the enrichment of society and nation at large.

We fervently hope that the mission that started by us with blessings of your won't be stopped until the goal is achieved. Nonetheless, the challenges do correspondingly crop up off and on due to not a beneficial social environment but we are still undaunted to carry over the objectivity for the anticipated go off well.

KBS is genuinely accepting new enrollment year by year within its manageable strength for the above mentioned cause. This year too, its strength reached up to 1000 nearly.

All classes have two sections from Nursery to IX but class X there are sections of course, a great challenge ahead for us in years to come.

This is why "6th may" is solemnized as a "peace day of the year" in the name of the great soul.

We did organize a personality test program for our scholars and prize given after the function to the winner.

3. "A new event but the genuine one"

The institution is fully conversant to the pinnacle need of modern epoch i.e. personality development of its scholars. Group discussion (G.D.) has been launched since the very outset of the session. G.D. does not mean only a group discussion over the relevant and burning topics.

An amazing blend of laughter, spiritual and intellectual exposition was fastidious in accomplishing the epoch of G.D. We are indeed much fulsome to all our scholars, who have elaborated the things in genuine manner with rare precision especially the public performance on 2nd July would be an unforgettable event for the institution. In which Ms. Sumi Lama has been awarded for best speaker.

We fervently hope that a balanced and integrated personality will be utmost available to the greater cause for the society.

19th Nov. will be a memorable event for KBS family who has witnessed the presence and enjoyed the company of sublime and eminent human being from Norway who spent precious moment of their lives with our children and enjoyed our "short and sweet cultural program".

We are extremely grateful to the Right honourable Dr. Vilhelm and his group whose visit has enriched the intrinsic value of education by his invigorating speech. A most distinguished doctor from Norway combines in his personality the rigor and discipline of a noble man with a burning zeal to extend the hands of the help for the poor. His irrepressible dynamism and far-reaching vision are in fact, qualities embodied in Dr. Vilhelm himself. We extend our sincere thanks with a noble reverence; we are indeed much fulsome for his great insight and deeds for the great cause.

A broader outlook, a sense of service for the others and sacrifice at be hast of the society.

"From class V to class IX", students are actively involved in scout activities across the year with school and outside the school.

7. "Teacher's training"

Teachers are the nation's builder, great responsibility lies upon his/her shoulders. It's apparently true that he himself is first learner and than teacher. This is why he needs proper training and profound knowledge for the best submission. Henceforth, two science teachers went for teacher's training outside the institution.
