Preface

Our noble friends and well-wishers,

Man is a social animal and naturally equipped with the infinite potential in diverse faculties and capabilities. In terms of observing its excellence and sophistication, and then tidy-up them for social and human behavior, so that constructive and productive output could be produced to the coeval references. Education is indeed a dynamic and comprehensive process through which we can achieve wonderful human excellence. The debt, which we owe to our motherland, is to render selfless and noble service for the above attributions. KBS has been striving hard for more than two decades with sublime blessings of yours.

Despite the un-conducive social circumstances, political upheavals and above all the recent natural catastrophe on 25th April could not shake-off our unflinching determination. We indeed attribute our success to hard work and the munificent under pinning from you.

1. NEW-ADMISSION

New-admission is natural and consistent process. KBS does accept its liability of making new children well educated. But this year there is a little bit but required reduction in its total strength i.e. 864.

Hopefully a sustainable balance in over-all input will bring forth positive outcome in years to come.

2. A UNFEIGNED AND CONSTANT EFFORT

Man is naturally inherent part of society. And social behavior is intrinsic knowledge being produced in and around the society. Good knowledge plus social behavior produces ebullient characters.

KBS, indeed, strives hard to polish its latent input through lubricant endeavors in wake of securing its worth immensely, for the good cause and objectivity. G.D. (Group Discussion) is very contemporary task initiated before 7 years showing its excellent result to the need of society. It is source of intellectual growth, a very strong, consistent promising and elite group of students at KBS proving its best in every manner.

3. CHILDREN'S DAY

Children's day is very special day for our children not because it is a day for joy and cheers but more importantly their creativity, imagination, outlet, etc. get an opportunity to be staged on the public platform KBS offers an open and free access to contribute into "A talent show" that has successfully been performed with rich and diverse cultural spectrum on 15th September, 2015.

4. LIBRARY

Information technology and mass media are specialized branches of study but the modern young scholars are surmised to know about them not only for careers in these fields, but also for knowledge sake.

KBS is very consistent in improving and modifying the computer accessibility within its best potential so that every scholar of computer could get easy access with configuration to enjoy the outlets of computer programming. Now a spacious and well-modified computer lab is available to our learners with 25 computers and two teachers.
